Who we are

UK Door Systems is a family-owned door system company. We install, maintain, repair and service a wide range of doors, shutters and grilles, each designed to our clients' individual requirements.

From our head office in the Midlands, we offer a 24 hour, 7 days a week nationwide service.

Our staff have over 40 years combined experience in the door industry, and understand that you need a quick, efficient and cost effective door system that works for your business.

What we offer

- A 24/7 rapid response service, including emergency breakdowns. If a full repair cannot be carried out, we secure the door and complete the repair the following day in most cases
- A tailored approach – we listen to what you need, and design a solution to specifically fit your budget, timescale and security concerns
- Experienced and proficient staff - our engineers are highly skilled and our service vehicles are fully equipped to first-time-fix the majority of issues

We guarantee that we will

- Take emergency calls at any time day or night
- Give a quote within 24 hours of receiving an enquiry
- Provide a rapid response and workable, cost-effective solutions
- Keep you updated on the status of your job
- Work hard to minimise any disruption to your business
- Identify potential problems before they occur and reduce unnecessary downtime
- Advise you on repairs, upgrades, and safety features and requirements
- Supply all relevant safety documentation and reports
- Tailor a Planned Preventative Maintenance package that is right for your business

Access control systems

All types of window repairs

“UK Door Systems provided a speedy, friendly and cost effective service for our store. A quick turn around to repair our front entrance door, gaining entry and providing a permanent repair the next day meant that we traded as normal without any loss of business. I would highly recommend the UK Door Systems team.”

Matt – Luke Store, Birmingham

Planned Preventative Maintenance Packages

Let us give you peace of mind

We understand that door systems represent a significant investment for any business. Downtime can have an adverse impact through lost sales, reduced productivity and inconvenience. UK Door Systems' Planned Preventative Maintenance (PPM) packages are tailored to your needs and ensure that your doors continue to operate safely and efficiently.

When you take out a PPM package with us, we will safeguard the performance of your door systems, work to extend their service life and reduce repair costs, and ensure that they comply with your legal responsibilities.

Regularly serviced doors – we recommend two service visits a year – cost less to maintain, prevent potential injury to users and reduce expensive downtime.

UK Door Systems' PPM packages are tailor-made to your budget and safety, security and business requirements. Contact us today for a competitively-priced quote.
